

IEMN FLAGSHIPS

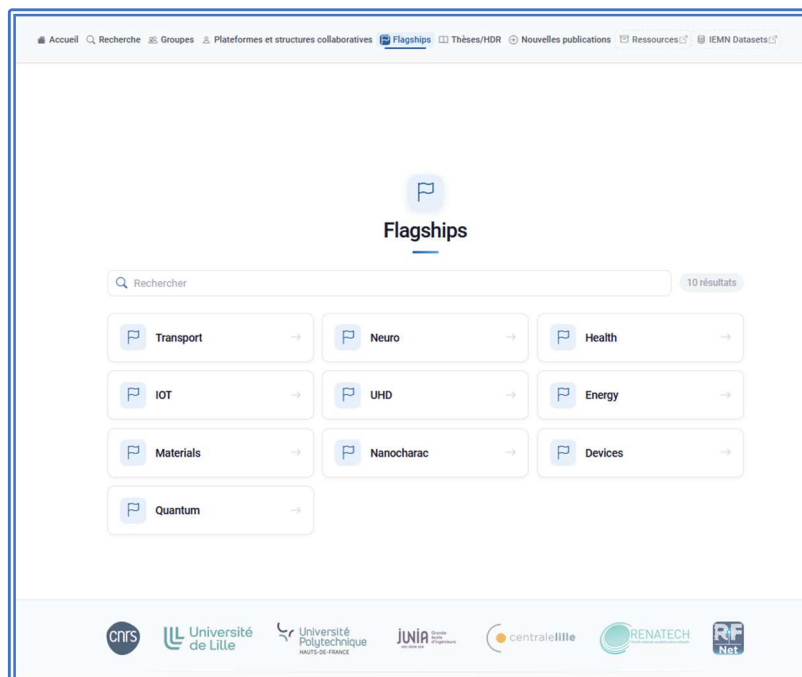

1. How can I view/extract the lists of publications linked to flagships?
2. How can I add a reference to a flagship's list ?

1. How can I view/extract the lists of publications linked to the flagships?

- ✓ Access via the advanced search: <https://publis.iemn.fr/#/search>

- ✓ Direct access to the main flagship page: <https://publis.iemn.fr/#/flagships>

✓ Access through the individual flagship pages :

- flagship_materials -> <https://publis.iemn.fr/#/flagships/materials>
- flagship_transport -> <https://publis.iemn.fr/#/flagships/transport>
- flagship_devices -> <https://publis.iemn.fr/#/flagships/devices>
- flagship_health -> <https://publis.iemn.fr/#/flagships/health>
- flagship_quantum -> <https://publis.iemn.fr/#/flagships/quantum>
- flagship_energy -> <https://publis.iemn.fr/#/flagships/energy>
- flagship_nanocharac -> <https://publis.iemn.fr/#/flagships/nanocharac>
- flagship_iot -> <https://publis.iemn.fr/#/flagships/iot>
- flagship_neuro -> <https://publis.iemn.fr/#/flagships/neuro>
- flagship_uhd -> <https://publis.iemn.fr/#/flagships/uhd>

Displays (lists/maps) and exports are available in different formats (txt, pdf, etc.).

2. How can I add a reference to a flagship's list ?

To add a HAL reference to a flagship list, enter one of the following labels in the HAL internal reference field (located at the bottom of the submission form, near the final validation step):

1. flagship_materials
2. flagship_transport
3. flagship_devices
4. flagship_health
5. flagship_quantum
6. flagship_energy
7. flagship_nanocharac
8. flagship_iot
9. flagship_neuro
10. flagship_uhd

The screenshot shows a HAL submission form with a sidebar on the left containing sections: Fichiers, Métadonnées, and Validation. The main form area includes fields for Mots-clés (JA), Thésaurus Fictifs, Mots-clés Arts et Métiers, Commentaires, and Références. The 'Références' section contains a 'Référence interne' field with a dropdown menu showing 'flagship_devices'. A red box highlights a list of flagship labels: flagship_materials, flagship_transport, flagship_devices, flagship_health, flagship_quantum, flagship_energy, flagship_nanocharac, flagship_iot, flagship_neuro, and flagship_uhd. A red arrow points from the 'Référence interne' dropdown to this list. At the bottom, a validation message states: 'Validation, je vérifie mes informations et j'accepte les conditions. Votre dépôt n'est pas encore complet !'.

You can link a HAL reference to multiple flagships by creating multiple “internal reference” fields (+ Ajouter).
